

## Pressure gauge with limit indicator/Color zone type

SMC CORPORATION  
4-14-1, Soto-Kanda, Chiyoda-ku,  
Tokyo 101-0021, JAPAN  
URL: <http://www.smcworld.com>

### G36-10-01-L(LN), G46-10-01(02)-L(LN)

Feature : Red and green zones offer improved visibility of pressure control range.

## Specifications

|                                  |                                    |            |
|----------------------------------|------------------------------------|------------|
| Model                            | G36                                | G46        |
| Outside diameter                 | 37.5mm                             | 42.5mm     |
| Type                             | Back side thread                   |            |
| Fluid                            | Air                                |            |
| Maximum operating pressure       | 1.0MPa                             |            |
| Ambient and fluid temperature    | -5 ~ 60                            |            |
| Indication precision             | ± 3%F.S.(Full span) <sup>(1)</sup> |            |
| Max. setting range for indicator | 0.5MPa                             |            |
| Connection thread                | R1/8                               | R1/8, R1/4 |
| Weight(Kg)                       | 0.04kg                             | 0.05kg     |

Note1) At 20 ± 5 . At any other temperature ± 6%F.S.

## How to Order

## Dimensions: mm

### G36

### G46

The dimensions in ( ) : Connecting thread R1/4

**Caution:** To ensure the safest possible operation of this product, please be sure to read thoroughly the "Safety Instructions" in our "Best Pneumatics" general catalog before use.
